ABOUT THE KAUTILYA SOCIETY

The Kautilya Society is a unique initiative developed under the aegis of the Vidhi Centre for Legal Policy, one of India's foremost legal think tanks. These societies are set up within leading law universities across the country to encourage student-led research, policy exploration, and democratic engagement. Functioning as a bridge between academic theory and practical governance, Kautilya Societies aim to shape future leaders in law and public policy through activities such as legal research projects, policy analysis, workshops, and stakeholder engagement. At NLUT, the Kautilya Society is driven by a team of passionate law students and faculty advisors who envision a society that not only critiques the law but actively contributes to reforming it.

ABOUT THE UNIVERSITY

National Law University, Tripura (NLUT) was established by the Government of Tripura under the Tripura Act No. 3 of 2022. As one of India's youngest national law universities, NLU, Tripura represents a crucial step toward advancing legal education, academic research, and public policy engagement in the northeastern region of India. The university is committed to nurturing a generation of legal professionals who are not only well-versed in substantive and procedural law but are also mindful of the socio-political realities of their communities and the country at large. With a growing emphasis on interdisciplinary learning, experiential education, and student-led academic initiatives, NLUT is rapidly evolving into a hub of intellectual growth and legal innovation.
